SHOE SELECTION GUIDE

WOMEN'S SELECTION GUIDE

Why Therapeutic Shoes?

- Diabetics are at a higher risk of foot ulceration
- Foot ulcerations in diabetics are long lasting and commonly lead to lower limb amputations
- Therapeutic shoes help prevent the incidence of diabetic foot ulceration and thereby can reduce amputations
- In 1993 Congress passed the Therapeutic Shoe Bill to prevent increasing numbers of diabetic amputations and foot ulcerations. It states that when a patient has proper documentation that they are diabetic and meet certain qualifying conditions they are eligible to receive:
 - One (1) pair of off-the-shelf depth shoes and three (3) pairs of molded multi-density insoles within one (1) calendar year

Why SureFit?

- Selection – SureFit manufactures our own shoes and accommodative insoles while carrying 9 other major brands. We have a shoe to match each patient's individual needs and style.
- Fit – SureFit ensures that our shoes properly fit each patient. Our shoe fit guarantee allows you and your doctor to be confident in your product choice.
- Delivery – SureFit has exceptional turnaround time allowing for rapid delivery to your provider and you.
- Service – Our certified in-house staff allows your doctor and their staff to be confident that you will receive the highest quality product that meets all Medicare requirements.

Where Do I Fit?

- Mild Shoes – Mild foot deformities and/or mild swelling
- Moderate Shoes – Mild to moderate foot deformities and/or moderate swelling
- Severe Shoes – Severe foot deformities or partial amputations and/or severe swelling
